

ABOUT ME

Computer Science Engineering student with practical experience in frontend and full-stack web development using React.js, JavaScript, Node.js, Express.js, MongoDB, MySQL, and PostgreSQL. Passionate about building responsive and user-friendly web applications, integrating APIs, and developing scalable solutions. Strong problem-solving abilities with hands-on experience through internships and real-world projects.

WORK EXPERIENCE

Full Stack Developer

Nov 2025 – May 2026

Dimisi Technologies Pvt. Ltd.

- Developed scalable anonymous social networking platform using React.js, JavaScript, Bootstrap, and CSS.
- Built reusable UI components and responsive layouts for improved cross-device compatibility.
- Optimized frontend rendering performance and improved application responsiveness.

Software Developer Intern

Aug 2025 – Sep 2025

Bluestock Fintech

- Engineered a stock market analysis system using React.js and company-provided REST APIs, increasing prediction computation speed by 20% for end users.
- Designed and implemented interactive data visualization dashboards, enabling traders to analyze market trends and make data-driven investment decisions.
- Collaborated with backend developers to integrate proprietary databases and optimize API response handling.

ACADEMIC PROJECTS

KaryOn (Making Home Services Simple & Reliable)

Sep 2025 – Mar 2026

- Built a responsive full-stack web application with React.js, JavaScript, REST API integration, and component-based architecture.
- Implemented dynamic user interactions, optimized frontend performance, and ensured cross-device compatibility for seamless user experience.
- Developed scalable and reusable UI components with efficient state management, API handling, and responsive design principles.

College Conference Website

Feb 2026

- Built a fully responsive conference information website with component-based architecture using React.js and Bootstrap, achieving a 95+ Lighthouse performance score.
- Integrated APIs and optimized frontend rendering to deliver fast-loading event content and seamless user interaction across devices.
- Built reusable React components and responsive UI layouts to improve scalability, maintainability, and cross-browser compatibility.

Weather Forecast Web Application

2024

- Developed a real-time weather forecasting web application using JavaScript, REST APIs, HTML5, and CSS3 with dynamic weather data rendering and asynchronous API handling.
- Designed a responsive and user-friendly interface with optimized API integration, live weather updates, and cross-device compatibility for seamless user experience.

EDUCATION

Bachelor of Technology	2022 – 2026	Senior Secondary (Class XII)	2021
Computer Science & Engineering		Shemushi Vidyapeeth, Reoti Ballia	
Axis Institute of Technology & Management, Kanpur		Percentage: 90.20%	
CGPA: 7.84/10			

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, PostgreSQL
- Languages: Java (Data Structures & Algorithms), &
- Platforms: Git, GitHub, VS Code

SOFT SKILLS

- Leadership & Team Management
- Communication & Collaboration
- Time Management & Prioritization
- Adaptability & Quick Learning
- Analytical Thinking & Problem Solving
